«Collaboration Tickets»

Would you like to talk directly to the start-ups? And do you have expertise that could also be of interest to the start-ups? Discover a slightly different marketplace with the 'Collaboration Tickets'. When a start-up's defined 'Collaboration Need' and your 'Collaboration Offer' match, a 'Collaboration Ticket' can be issued. This allows you to network in a targeted manner, gain inspiration for new opportunities for you and your company or find joint collaboration opportunities. Fill out your 'Collaboration Offer' in the registration form.
